DETAILED ACTION

1. Claims 15-29 and 46-51 are pending in this application.
2. Claims 1-14 and 30-45 were previously cancelled.

Allowable Subject Matter

3. Claims 15-29 and 46-51 are allowed over the prior art of record.

Examiner's Statement of Reasons of Allowance:

4. The following is an examiner's statement of reasons for allowance: Independent claim 1 recites the uniquely distinct features of "...the cluster host...adapted to communicate a local screening table comprising at least a portion of the master screening table to each of the plurality of server computers, and each of the plurality of server computer is adapted to: receive the local screening table from the cluster host; receive an event requesting a service; create an event identification associated with the event; and select a table entry from a plurality of table entries in the local screening table as a selected table entry....increment a first count value associated with a first table entry of the plurality of table entries in the local screening table in response to the event identification matching an event identification associated with the first table entry; decrement a second count value associated with the selected table entry of the plurality of table entries in response to the event identification not being present in the local screening table; replace the selected table entry with the event identification associated with the received event in response to the second count value equaling a predetermined

Art Unit: 2435

value; and determine a metric value for the event from the local screening table, the metric value indicating that the event is an abusive request.” The prior art, taken either singly or in combinations, fails to anticipate or fairly suggest the limitations of Applicant’s independent claim, in such a manner that a rejection under U.S.C 102 or 103 would be proper. The claimed invention is therefore considered to be in condition for allowance as being novel and nonobviousness over prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
